How the arts can benefit your mental health Research suggests that colouring books, music and poetry can boost your mood

art can improve mental well-being is something many people can los sight of eroacially if the have become disconnector from the dancing, creative writing, drawing and singing the used to enjoy a children. LUSTRATION NYTIMES

The Straits Times June 7 2023

Don't play down the importance of the Aesthetics

What research says...

nyoy as children.

There is a 'really robust body of evidence' that suggests that creating art, as well as activities such as attending a concert or visiting a museum, can benefit mental health

improvement in my mood," said Dr Clark, who now sees patients in Greer, South Carolina. "It gave me another outlet." The notion that art can improve mental well-being is something dra many people intuitively under-VOL stand, but can lose sight of - espe-T cially if they have become disconnected from the dancing, creative peop writing, drawing and singing they can b apist. But there is a "really robust body neuro of evidence" that suggests that of Mer creating art, as well as activities book. uch as attending a concert or vising a museum, can benefit menhealth, said research director Sonke of the University of Florenter for Arts in Medicine. are a few simple ways to you with the arts.

that singing reduces levels of cortisol, your body's main stress hormone. Music can be effective at reducing stress because things like rhythm, repetitive lyrics and chords engage multiple regions of the brain.

Other studies have found

3 ENJOY MORE MUSIC 4 WRITE Listening to music, playing an instrument or singing can all be beneficial, research above. A 2022 study for example, sur-Dr. Cla bostry a load ach veyed more than 650 people in First four age groups and asked them to rank the artistic activities that helped them feel better during the WOOTST amile 2020 pandemic lockdowns. The youngest participants, aged 18 to 24, overwhelmingly rated thre musical activities as most effechas har Across all age groups, singing was ranked among the top activ-

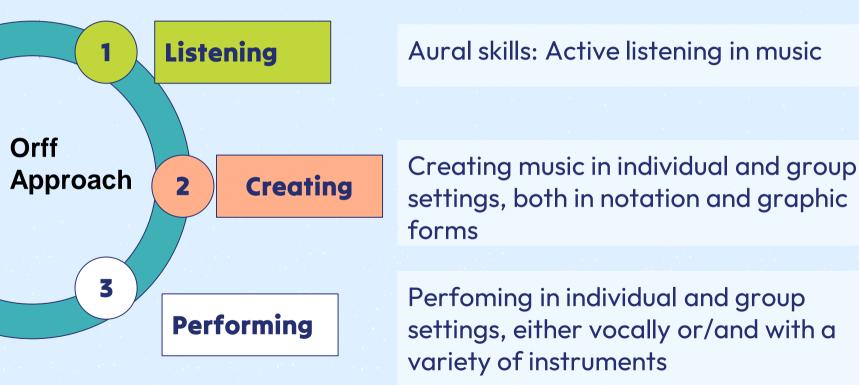

Other studies have found that singing reduces levels of cortisol, a hormone that the body releases when it is under stress. As an example, mothers who had recently given birth and regularly sang to their babies had less anxiety. Prof Magsamen noted that music can be effective at reducing stress because things like rhythm, repeti tive lyrics and chords engage mul tiple regions of the brain. I sing in the shower, she said.

sing at the top of my lungs to the radio."

Things to note

- Use of hand sanitizer (before and after use of instruments)
- Sight and sign on assessment rubrics
- Keep all music worksheets and rubrics in a music file (to be used for the whole 6 years of music education)

How can you support your child?

Sing/make music together

Affirm and encourage

Be supportive

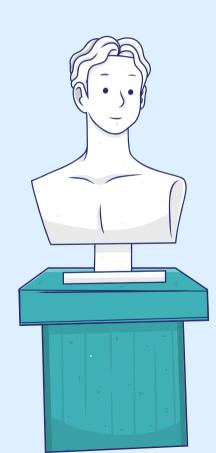

Art curriculum and Pedagogy

Aims of Art Education

To enable every student to enjoy art, communicate visually, and make meaning through connecting with society and culture.

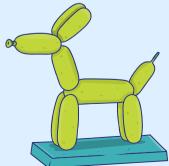

3 Big Ideas of Art

- Art helps us to see in new ways
- Art tells stories about our world
 - Art influences how we live

Learning outcomes

See	Observe – Inquire
Express	Create – Innovate
Appreciate	Connect - Respond

PEDAGOGY in Art Making & Art Discussion

Inquiry Based Approach

Present opportunities for students to be engaged in different levels of inquiry

Curiosity, exploration and experimentation are valued

Students' voices are encouraged – own the creative process to bring their ideas to reality

Develop motivation & a sense of identity & self-efficacy

Modular lessons

- 1 module per term
- 4 modules per year

Focus Areas:

Self & Immediate Environment Singapore Past, Present and Future The World and Region We Live In Themes: People and Places, Experiences and Emotions and Time and Space

Every module includes

- Discussing art and artists
- Artmaking inspired by artists
- Acquiring art knowledge, skills & values through inquiry-based learning
- Learning through artistic processes such as
- Materiality
 - Inspiration
 - Experimentation
 - Emotion
 - Imagination
