## 1. Transport Ambassador Programme

We are pleased to share that our school is partnering with the Land Transport Authority (LTA) to participate in the Transport Ambassador Programme (TAP), an engaging initiative aimed at promoting sustainable transport habits among students.

The programme consists of three components :

- Assembly Show - Let's Flip the Future! (conducted on 27 April 2026)
- Roving Exhibition – 6 July to 10 July
- Green Commute Challenge - 6 July to 20 July

Through these activities, students will learn about sustainable transport options in Singapore and gain a deeper understanding of how their daily commuting choices can contribute to a greener and more sustainable future.

Please refer to the attached information provided by LTA for more details on the programme.

We look forward to your support in the Transport Ambassador Programme. If you have any queries, you may email to [lim\\_sok\\_yen@schools.gov.sg](mailto:lim_sok_yen@schools.gov.sg).

## 2. RGPS Library Week 2026

RGPS Library Week is back from 27 to 31 July 2026 with an exciting line-up of programmes and activities designed to spark curiosity, creativity and a love for reading in every pupil.

This year's theme explores how stories can inspire inquiry, imagination and problem-solving through STEM (Science, Technology, Engineering and Mathematics). Through engaging assembly programmes, author showcases, interactive challenges, hands-on activities and themed book displays, pupils will discover how reading can inspire curiosity, creativity and new ways of thinking.

**4. Road Safety Posters**

The Singapore Road Safety Council (SRSC), together with the Traffic Police (TP), Land Transport Authority (LTA), Ministry of Education (MOE), People's Association (PA), and Automobile Association of Singapore (AAS), officially launched the Singapore Road Safety Month (SRSM) 2026 on 30 May 2026.

As part of this year's campaign, four Road Safety E-Posters were unveiled and featured in the [Police News Release](#). These posters have been developed to reinforce key road safety messages and encourage safer behaviours among all road users.

To further amplify these important messages within the community, we would appreciate your support to reinforce the road safety messages with your child/ward and family.

Your support will help raise awareness of road safety and contribute towards fostering a safer environment for all road users.

5. Assembly Talk on Energy Conservation

Your child/ward has attended an assembly talk on energy conservation on 29 June, Monday. This assembly talk aims to help students:

- Understand that there is a disruption to energy supply due to world events which affect Singapore; and
- Recognise that they can play a part in saving energy.

Parents/Guardian may wish to continue the conversation at home to engage your child/ward on what she can do to support such efforts on a day-to-day basis. You may wish to use the infographics attached when engaging your child/ward.
